PROJECTS

Traywick Law Offices Website Enhancement for traywicklaw.com

Implemented dynamic hero section with automated slider and multistate boxes using Velo on Editor X.

Enhanced user experience with dynamic fading effects and text translation.

Collaborated with David Traywick from Traywick Law Offices to revitalize website's first impression.

Real-time Exchange Rate Integration for frombrazil.info

Fetches HTML content asynchronously from CEPEA - Center for Advanced Studies on Applied Economics, Brazil using Fetch API.

Custom parsing function implemented to extract exchange rate information.

Seamlessly integrated exchange rate data into Wix website using Wix Velo.

Ensured real-time updates and error handling for smooth functionality.

RSB Inn Website Redesign, rsbinn.com

Collaborated with Reza to elevate online presence of RSB Inn through advanced Velo animations.

Introduced dynamic animations in hero section textbox, image carousel, and services strip.

Enhanced user engagement and storytelling with visually captivating effects.

Redesigned website stands out in competitive landscape of home improvement services.

Custom Search Functionality for dogsdirectuk.co.uk

Implemented custom search feature allowing users to search for dog-related services in various locations.

Developed well-formatted search results display with interactive map and contact details.

SEO-friendly search parameters included in URL for improved search engine visibility.

Built using Wix platform with custom functionality implemented using Wix's development environment, Velo.
